

## ***NPA Journalism – June***

For June we will follow a 'mini' version of the course to give you a taster. We will focus on two of the units - Research and Interview Skills; and Feature Writing - and follow a three week programme which is similar to the steps we will explore in more depth and detail for all of the units from August.

Work will be posted weekly on Teams and emailed out by Miss Fleming.

### **Week 1:**

Each candidate should find a good example of three things - research done by a journalist; an interview; and a feature article - and be prepared to discuss the merits of their choices in a submitted document.

### **Week 2:**

Each candidate should present a plan for a short feature article which includes some research and an interview. Planning should acknowledge good practice reviewed in week 1.

### **Week 3:**

Each candidate should write up this article, taking into account feedback from week 2.
