

Hi p7's that are soon turning into s1

I'm here to talk about what my experience was in s1 in Leith. Lets start from the 3 day visit to be honest I thought it was going to be a nightmare especially when I found out when I wasn't going to be with my best friend. There were these wonderful kind s6's that will take you around the school to get to your classes. In the 3 day visit I got to know a lot of people and made friends that I'm close to now. The one I would tell you is to go for it just sit next to someone and be like HI tell them what school you came from start a basic conversation. Don't be scared to talk. The school is huge when you go in first but trust me in a few days you will know where everything is. The teachers are nice and fun there all different and have different personalities I mean you can't expect all teachers to be the same. My favourite classes would be social studies, science. I like all of them. I can't choose.

Well I hope this letter helped. BYE
