

Team Vortex – F1 in Schools

Leith Academy have entered a team for the international F1 in Schools competition, Team Vortex.

- F1 in Schools is a global multi-disciplinary challenge in which teams of students use CAD/CAM software to collaborate, design, analyse, manufacture, test, and then race miniature compressed air powered cars.
- Teams must raise sponsorship and manage budgets to fund research, travel and accommodation.
- Students use IT to learn about physics, aerodynamics, design, manufacture, branding, graphics, sponsorship, marketing, leadership/teamwork, media skills and financial strategy, and apply them in a practical, imaginative, competitive and exciting way.

Team Vortex have worked extremely hard this term, and have secured a partnership with Lamborghini Edinburgh, as well as sponsorship from many companies and organisations including Morton Fraser and The Proclaimers.

Meeting with Andy Canning, Lamborghini Edinburgh

The team are now putting the finishing touches to their car, folio and presentation, ready to compete at the Scottish finals on the 24th February.

If you would like to learn more about the team, their project and their successes please follow them on Instagram: ***vortex_f1inschools***

We are wishing Team Vortex lots of luck at the Scottish finals. We are so proud of their hard work, motivation and determination to succeed. **Go Team Vortex!**

If you would like to get involved or support the team in any way, please get in touch.
